Separate IBO and QDMA Shooting Stakes

What is the QDMA format? The Quality Deer Management Association introduced this scoring format in an effort to promote ethical bowhunting shots, with an emphasis on each individual shooter knowing their own abilities and limitations. There are three stakes at each target worth 10, 8 and 6 points. At each target, the shooter has the option of shooting from any one of the three stakes. Points are awarded, based on whichever stake the shot was taken from, for arrows landing inside or touching the lung area or kill zone of that target (IBO 8 pt. ring). However, for shots that miss the target or arrows that hit the target, but are outside of the lung area, points are subtracted.
